D

What is the CAGED System?

CAGED stands for the 5 open chord shapes: C, A, G, E, and D. When adjusted with a barre (to replicate the nut), each shape can be moved up or down the neck to play any chord in any key — in 5 different positions.

The 5 CAGED Shapes

Each shape covers a distinct region of the fretboard

C Shape

Fret 0–5

Root on A string (5th). Open position feel.
Great for upper register melodies.

A Shape

Fret 3–7

Root on A string (5th). Barre chord shape.
Common rock & pop voicing.

G Shape

Fret 5–9

Root on low E & high e strings. Wide stretch. Rich, full-neck sound.

E Shape

Fret 7–11

Root on low E string (6th). The classic barre chord. Most recognised shape.

D Shape

Fret 10–14

Root on D string (4th). Higher register.
Bright, punchy tone.

Activity

- 1 Identify the C shape on the fretboard
- 2 Identify the A Chord with starting with G shape
- 3 Identify the G Chord starting with E shape
- 4 Identify the E Chord starting with D shape
- 5 Identify the D starting with A shape
- 6 Chord Progression using CAGED system
- 7 Improvise CAGED using 3 strings

Homework — Lesson 1

DUE NEXT CLASS

The Task

Progression

G · Em · C · D

Method

Play all 5 CAGED box shapes over the backing track

Duration

Record 1.5 to 2 minutes of your playing
